Education

- B.S., (1961), National Chen-Kung University, Taiwan
- M.S., (1964), New Mexico State University
- Ph.D., (1967), Stanford University

Dr. Yeh is the Richard G. Newman AECOM Distinguished Professor of Civil Engineering at UCLA.

Dr. Yeh's research focuses on groundwater modeling and optimization of large-scale water resources systems. For his professional accomplishments, he has received numerous national and international honors/awards. He is a Fellow of the American Geophysical Union, a Fellow of AAAS, a Distinguished Member of the American Society of Civil Engineers, and a member of the US Academy of Engineering. Most recently, in December 2014, he received the 6th Prince Sultan Bin Abdulaziz International Prize for **Water for Water Management & Protection** for his development of optimization models to plan, manage and operate large-scale water resources systems throughout the world.

Dinner Menu (Chef Wang)

广式烧鹅

B.B.Q. Roast Duck
