McWONG ENVIRONMENTAL & ENERGY GROUP

www.meeg.com.cn

McWong Environmental & Energy Group currently has a project manager opening. Please see below for the requirements and qualifications:

- Chemical Engineer/Environmental Engineer/Civil Engineer
- Excellent English, Chinese speaking a major plus
- 10 plus years work experience in the environmental or related field
- Open-minded, self-motivated, easy going, with a passion for teamwork
- Required good communication skills, both oral and written
- Negotiating skills necessary in both the U.S. and in China
- Possess a solid network of industry professionals, (i.e. government contacts)
- Willing to travel to China for extensive periods of time (6-9 months at a time)

Responsibilities include, but are not limited to:

- Act as main channel for connecting with U.S. suppliers and technology providers and in turn, share this information with China team
- Assist in training the China team on new equipment, new technology and other cutting-edge products suitable for the China market
- Prepare technical proposals related to U.S. technology and international projects

Please contact Julie Yu, Operations Manager via email.
